Contents

NUMBER 1, JANUARY 1985

i *B. Hedegård:* Obituary
1 *G. Hellsing and J. S. McWilliam:* Repeatability of the mandibular retruded position
9 *M. M. A. Vrijhoef, H. Letzel and F. H. J. Hendriks:* A method to determine the loss of substance of dental restorations
17 *S.-E. Widmalm, P. A. Nemeth, M. M. Ash and J. H. Lillie:* The anatomy and electrical activity of the platysma
23 *J. D. van Willigen, C. Rashbass and H.J. Melchior:* 'Byte-ryte', an apparatus for the determination of the preferred vertical dimension of occlusion required for the construction of complete denture prosthesis
27 *R. W. Bryant:* The reaction zone around experimental amalgam alloy particles of Ag-Cu eutectic composition
37 *R. W. Bryant:* The reaction zone around commercially available amalgam alloy particles of Ag-Cu eutectic composition
49 *C. S. Stohler and M. M. Ash, Jr:* Demonstration of chewing motor disorder by recording peripheral correlates of mastication
59 *C. H. Lloyd and M. Adamson:* The fracture toughness (K_{IC}) of amalgam
69 *A. Petrović:* Speech sound distortions caused by changes in complete denture morphology
81 *J. Moran and M. Addy:* The pattern of adsorption of cationic antiseptics to polymethyl methacrylate
91 *G. Weiss, A. Stabholz, A. Markitziu, I. Meyer, L. Brayer and I. Gedalia:* The effect of iron on *in vitro* decalcification of human tooth enamel

NUMBER 2, MARCH 1985

95 *O. Grosfeld, M. Jackowska and B. Czarnecka:* Results of epidemiological examinations of the temporomandibular joint in adolescents and young adults
107 *D. M. Watt and P. M. McPhee:* Gnathosonic monitoring of occlusion of complete and partial dentures
113 *D. Adams:* A cantilevered swinglock removable partial denture design for the treatment of the partial mandibulectomy patient
119 *T. P. Nowlin and J. O. Bailey:* Evaluation of the effect of anxiety on the masseteric silent period duration
123 *E. H. Greener and K. Matsuda:* Effect of oxygen on the corrosion of dental amalgam

135 *R. B. Winstanley:* The hinge-axis: a review of the literature
161 *N. Duthie and R. Yemm:* An alternative method for recording the occlusion of the edentulous patient during the construction of replacement dentures
173 *B. L. Dahl and O. Krogstad:* Long-term observations of an increased occlusal face height obtained by a combined orthodontic/prosthetic approach
177 *D. M. Quinn:* The effectiveness, *in vitro,* of miconazole and keteconazole with tissue conditioners in inhibiting the growth of *Candida albicans*
183 Book reviews

NUMBER 3, MAY 1985

189 *P. Kirveskari and P. Alanen:* Association between tooth loss and TMJ dysfunction
195 *M. I. MacEntee:* The prevalence of edentulism and diseases related to dentures—a literature review
209 *M. A. Lieberman, E. Gazit, C. Fuchs and P. Lilos:* Mandibular dysfunction in 10–18 year old school children as related to morphological malocclusion
215 *P. McInnes-Ledoux, P. E. Cleaton-Jones and J. C. Austin:* The pulpal response to dilute citric acid smear removers
229 *J. Arends, H. v. d. Veen, G. v. Groeningen and J. Schuthof:* Quantified marginal leakage of composites *in vitro*
235 *R. Grajower, I. Lewinstein and C. Zeltser:* The effective minimum cement thickness of zinc phosphate cement for luted non-precious crowns
247 *L. Izikowitz:* A long-term prognosis for the free-end saddle-bridge
263 *L. Carr, P. Cleaton-Jones, P. Fatti and J. Wolfaardt:* An experimental comparison of vertical tooth movement of 33° and 0° teeth after denture processing procedures

NUMBER 4, JULY 1985

279 *J. W. Osborn:* The disc of the human temporomandibular joint: design, function and failure
295 *E. S. Duke, R. W. Phillips and R. Blumershine:* Effects of various agents in cleaning cut dentine
303 *W. K. Solberg, T. L. Hansson and B. Nordström:* The temporomandibular joint in young adults at autopsy: a morphologic classification and evaluation
323 *P. M. H. Dummer, J. Davies and M. Harris:* Automated thermatic condensation of gutta-percha root fillings in teeth with open (immature) apices
331 *S. E. Widmalm and M. M. Ash Jr:* The refractory period of the masseteric cutaneous silent period
337 *B. L. Dahl, F. Fløystrand and K. Karlsen:* Pathologic attrition and maximal bite force

343 *R. Yemm:* A neurophysiological approach to the pathology and aetiology of temporomandibular dysfunction
355 *S. E. Mohamed and L. V. Christensen:* Mandibular reference positions

NUMBER 5, SEPTEMBER 1985

369 *E. Berg:* Periodontal problems associated with use of distal extension removable partial dentures—a matter of construction?
381 *M. Finger, C. S. Stohler and M. M. Ash:* The effect of acrylic bite plane splints and their vertical dimension on jaw muscle silent period in healthy young adults
389 *Xu Hengchang, Wang Tong and Song Shiqing:* Wear patterns of composite restorative resins *in vitro;* observations by scanning electron microscopy
401 *L. R. Eversole, J. R. Pappas and R. Graham:* Dental occlusion wear and degenerative disease of the temporomandibular joint: a correlational study utilizing skeletal material from a contemporary population
407 *D. K. Whittaker, G. Davies and M. Brown:* Tooth loss, attrition and temporomandibular joint changes in a Romano-British population
421 *L. V. Christensen and J. T. Radue:* Lateral preference in mastication: a feasibility study
429 *L. V. Christensen and J. T. Radue:* Lateral preference in mastication: an electromyographic study
435 *P. R. Mezger, M. A. Van T'Hof, H. Letzel, S. Eschen, P. J. B. Leempoel, P. A. Snoek and M. A. Vrijhoef:* Methodological aspects in clinical evaluation of case restorations with colour slides
443 *L. P. Adams and R. J. C. Wilding:* A photogrammetric method for monitoring changes in the residual alveolar ridge form

NUMBER 6, NOVEMBER 1985

451 *C. Engström, L. Holiender and S. Lindqvist:* Jaw morphology in edentulous individuals: a radiographic cephalometric study
461 *L. V. Christensen and J. T. Radue:* Lateral preference in mastication: relation to pain
469 *G. J. Ewers and E. H. Greener:* The electrochemical activity of the oral cavity—a new approach
477 *T. A. Larheim and F. Fløystrand:* Temporomandibular joint abnormalities and bite force in a group of adults with rheumatoid arthritis
483 *K. Holmgren, A. Sheikholeslam and C. Riise:* An electromyographic study of the immediate effect of an occlusal splint on the postural activity of the anterior temporal and masseter muscles in different body positions with and without visual input
491 *C. J. Thomas, T. J. v. W. Kotze and J. M. Nash:* Papillarity of the palatal mucosa

499 *C. Alexandridis, A. A. Caputo and C. E. Thanos:* Distribution of stresses in the human skull
509 *L. V. Christensen, S. E. Mohamed and J. D. Rugh:* Isometric endurance of the human masseter muscle during consecutive bouts of tooth clenching
515 *P. J. B. Leempoel, S. Eschen, A. F. J. De Haan and M. A. Van't Hof:* An evaluation of crowns and bridges in a general dental practice
529 *Society of Oral Physiology:* Abstracts of Presentations to the Fourteenth Biennial Meeting 9–12 May 1985, Gent, Belgium
